- Privacy*
- Visibility

* Features available with the solid ShopGuard model

Quality

Rollac Shopguard are made with a high quality finish. Either the popular silver anodized or powder coated finish add security with a quality look.

Strength

Rollac Shopguard are made out of aluminum extrusions. These aluminum extrusions provide a very strong shield against impact. Optional, an end retention system can be added for additional security.

Innovation

The ShopGuard RLL59 Slat is a patented system by Rollac.
