- Transmitters
- Control Systems

Section 9

- Garage Door Parts

Section 10

- Storm Panels
- Mounting Equipment

Section 11

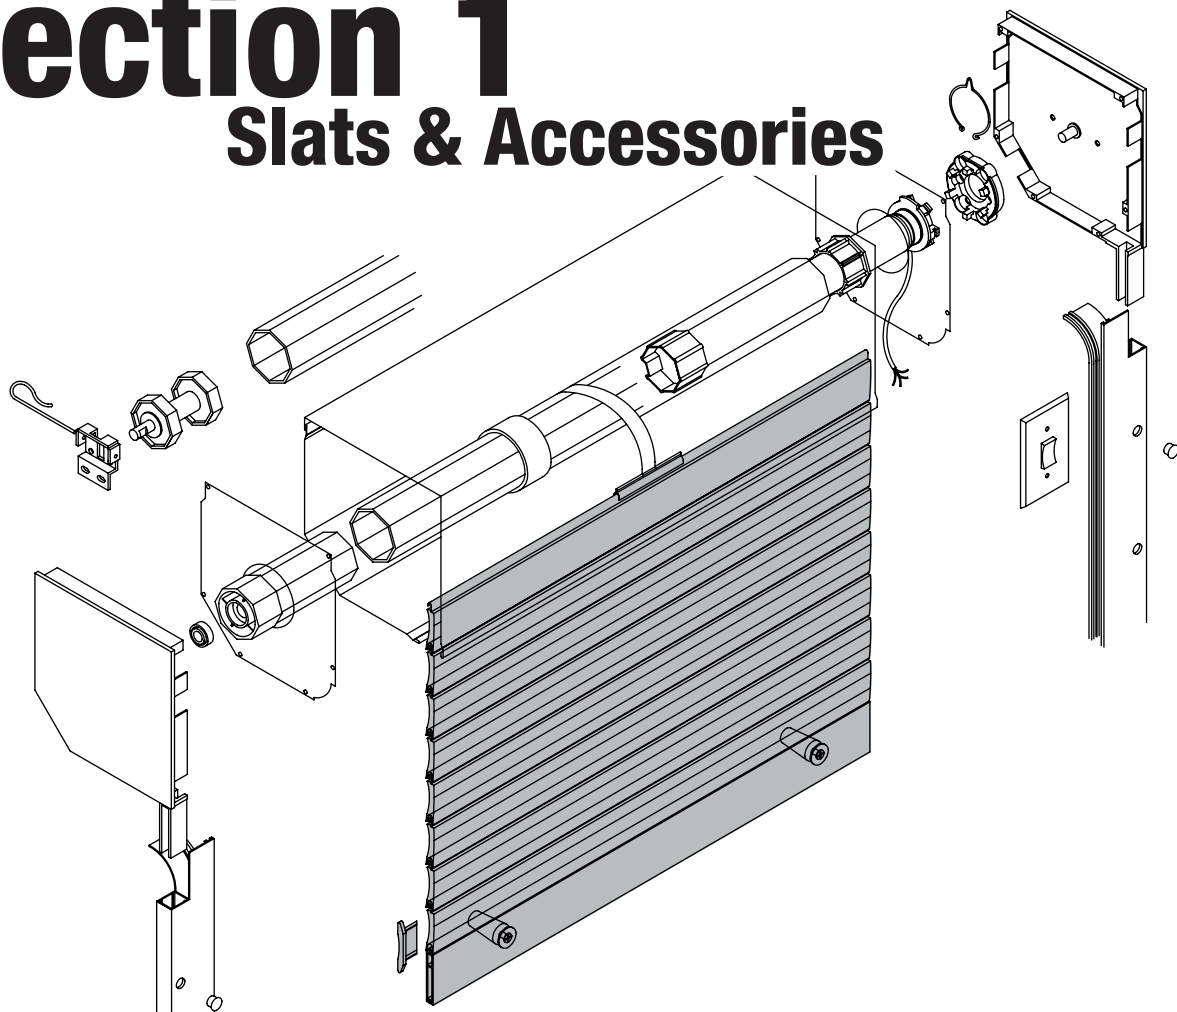

- Manufacturing Equipment / Accessories

Section 12

- Technical Appendix

Section 1

Slats & Accessories

Slat Construction

Regular Foam-Filled

Lightweight system that can be operated manually to reduce purchase price. They offer good energy saving properties, privacy, shading, noise, light control, and comfort.

Hard Foam-Filled

These slats are filled with high-density foam that enhances durability and strength. Hard foam slats are the ideal solution for residential security and storm protection.

Single Wall Extruded Aluminum

Choose a single wall slat for a lighter weight curtain that still performs like an all aluminum slat. Increase visibility throughout the shutter curtain with the grid or rectangle punch option.

Double Wall Extruded Aluminum

The heavy-duty option is for security and storm protection. Extra thick double-walled aluminum will keep out the toughest of storms and potential criminals.

PVC Slats

Lightweight and easy to clean, PVC rolling shutters can match the PVC construction of existing window and door openings. They provide energy efficiency and moderate resistance to storms and debris.

Lexan

A lightweight translucent system which increases visibility and establishes a physical barrier.

Other Components

Side Locks

Side locks keep the individual slats in the curtain aligned. Use end retention side locks for enhanced security. They increase a shutter's stability against pullout at high stress loads.

Base Slats

Base slats seal the curtain at the bottom area.

Plastic Stops

Plastic stops prevent the shutter curtain from rolling up into the box cover on manually operated shutters.

Locks & Security Devices

Locks enhance security on your shutter. Recommended for manual shutters.

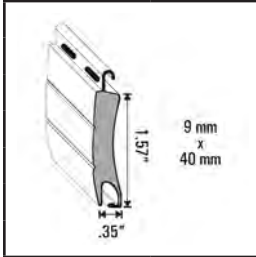

Color Options

Cream	White	Grey	Lt. Beige
Bronze	Dark Brown	Arcona Beige	Metallic

For more technical slat information, see our slat spec sheets in the appendix.

Section 2

Rails & Accessories

Mini & Maxi Side Rails

Side rails are the vertical structures that attach the slat curtain to the wall and guide the curtain during vertical movement. The type of rail you choose will be dependent on whether the curtain contains a smaller mini slat or a larger maxi slat. See the slat references next to each part for more information on which rail is right for a given shutter.

End Retention Side Rails

Choose end retention side rails when high security or severe weather protection is necessary. These rails have an additional extrusion that locks slats into the rail, preventing pull-out under high pressure. Note that a special end retention side lock and slat is required.

Aluminum Angles

Angles provide a resting point for shutters when an opening lacks a sill or stopping point.

Notice about Colors

If color is not available, it can be obtained through custom painting. Minimum paint charge of \$150 per color applies.

Storm Bars

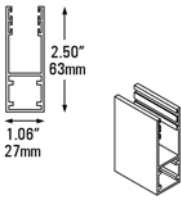

Storm bars provide an additional level of resistance to shutter deflection in severe wind areas. They act as a physical brace that is positioned in the center of two rails to mediate pressure. Storm bars are removable during less inclement weather.

Build Out

Extra material used when a shutter must clear any obstruction such as a window frame. Select build out materials in conjunction with the size of rail used and the clearance away from the wall required.

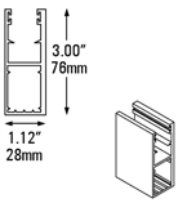

MAXI SIDE RAILS

Maxi Side Rails 63 mm x 27 mm (2.50" x 1.06") - Fits all Maxi Slats

Section 3

Boxes & Accessories

Box Covers

Box covers protect the internal working parts of a shutter and act as a housing for a rolled up shutter curtain. Highly recommended for external applications.

Side Caps

Side caps connect the rails to the axle of the shutter. Choose side caps that are appropriate for the curtain rail and box cover (45 or 90 degrees).

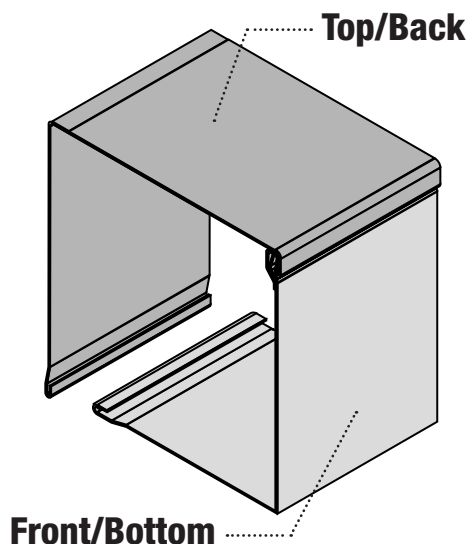

Safety Plates

Safety Plates create a barrier between the shutter curtain and the side cap. These plates prevent the curtain from sliding off the center of the track which would cause damage to slats.

Split Units

Split unit shutters are multiple shutters that run on one operator which can lower production costs of a project.

BOX COVERS 90°

Box covers are sold in 20 ft lengths.
Custom lengths available upon request.

All Top-Backs can be used with 90° or
45° Front Bottoms.

Please add the color # in place of '##'.

Section 4

Tubes & Accessories

Tube / Axle

Tubes are the structural center of the rolling shutter. Curtains attach and roll around the tube. Choose a tube based on the operator type, curtain weight and curtain size.

Spring Lock Hangers

Spring lock hangers are used to secure the slats into a locking vertical position and attach the slat curtain with the axle. Slat type will determine the spring lock hanger used (mini / maxi slat).

Idlers / Caps

Idlers / caps are located on the inside of the axle on the opposite side of the operator. They assist in turning the axle. Type of idler is determined by the weight of shutter and size of axle.

Adapters

Adapters are rings on the outside of the axle that transition different axle diameters. This is accomplished by converting an octagonal receptor to a circular one. They also aide in maintaining uniform curtain roll up.

Mounting Plates / Brackets

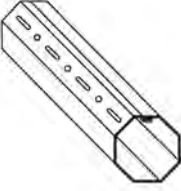

Mounting plates / brackets are mounted to side caps and support the axle and operator. They also connect the axle / operator to the the side cap.

Bearings

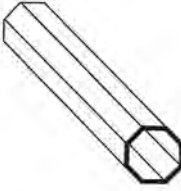

Bearings are located inside the cap / idler and help turn the curtain. Bearing is determined by the type of cap used.

TUBES

Octagonal Tubes - Galvanized Steel

	Part Number	Description	Unit	Note
	4000-TUBE-00-ST	1.50"/40 mm O.D. x 0.6 mm Wall Thickness	FT	*
	4004-TUBE-00-ST	2.00"/50 mm O.D. x 0.6 mm Wall Thickness	FT	*
	4010-TUBE-00-ST	2.36"/60 mm O.D. x 0.6 mm Wall Thickness	FT	*
	4014-TUBE-00-ST	2.36"/60 mm O.D. x 0.9 mm Wall Thickness	FT	*
	4032-TUBE-00-ST	2.75"/70 mm O.D. x 1.2 mm Wall Thickness	FT	*
	4033-TUBE-00-ST	2.75"/70 mm O.D. x 1.5 mm Wall Thickness	FT	*
	4034-TUBE-00-ST	2.75"/70 mm O.D. x 0.9 mm Wall Thickness	FT	*
Available in 19' or 19.7' (5.8 or 6 meters) Special Order				

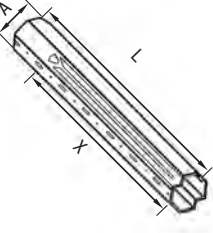

Octagonal Tubes - Aluminum

	Part Number	Description	Unit	Note
	4003-TUBE-00-AL	1.50"/40 mm O.D. x 1.3 mm Wall Thickness	FT	*
	4020-TUBE-00-AL	2.50"/60 mm O.D. x 2.4 mm Wall Thickness	FT	*
	4025-TUBE-00-AL	2.75"/70 mm O.D. x 3.0 mm Wall Thickness	FT	*
Available in 20 FT Lengths				

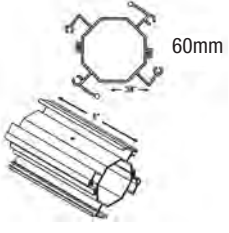

Round Tubes - Galvanized Steel

	Part Number	Description	Unit	Note
	4048-TUBE-00-ST	3.95"/100 mm O.D. x 2.0 mm Wall Thickness Available in 24 FT Lengths	FT	

Splicers / Extenders - Galvanized Steel (For Octagonal Tube)

	Part Number	Description	Unit	Note
	4080-TUBE-00-ST	For 40 mm O.D. x 0.6 mm L = 400 mm X = 300 mm A = 38 mm	PC	
	4085-TUBE-00-ST	For 60 mm O.D. x 0.6 mm L = 500 mm X = 420 mm A = 58 mm	PC	

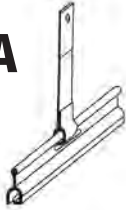

Aluminum Slat Hanger for Clear Lexan System

	Part Number	Description	Unit	Note
	1354-LOCK-00-AL	"Spider" Slat Hanger - 60 mm Octagonal Axle	PC	

* - Typically ships within 3 days
N - New item
! - Special order item

SPRING LOCK HANGERS

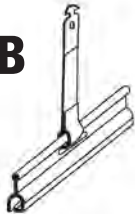

A

5.5" / 135 mm PVC - Coated Spring Steel (Aluminum Hook) Type "K"

Part Number	Description	Unit	Note
4100-LOCK-PL-ST	With Hole for Screw or Rivet (A)	PC	*
4101-LOCK-PL-ST	With Hole for Screw or Rivet & Hook (B)	PC	
4102-LOCK-PL-ST	With Hole for Screw (C) For Mini Slats, Used with Housing 7" or Smaller	PC	

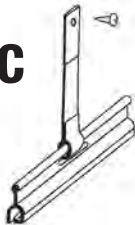

B

6.81" / 173 mm PVC-Coated Spring Steel (Aluminum Hook) Type "K"

Part Number	Description	Unit	Note
4110-LOCK-PL-ST	With Hole for Screw or Rivet (A)	PC	*
4111-LOCK-PL-ST	With Hole for Screw or Rivet & Hook (B)	PC	
4112-LOCK-PL-ST	With Hole for Screw (C) For Mini Slats, Used With Box Covers Larger Than 7"	PC	

C

7.87" / 200 mm PVC - Coated Spring Steel (Aluminum Hook) Type "K"

Part Number	Description	Unit	Note
4161-LOCK-PL-ST	With Hole for Screw or Rivet; Hanger 100 mm wide (A)	PC	*
4165-LOCK-PL-ST	With Hole for Screw or Rivet EXTRA WIDE Hanger 150 mm wide (A)	PC	
4170-LOCK-PL-ST	With Hole for Screw or Rivet & Hook Hanger 100 mm wide (B)	PC	
4172-LOCK-PL-ST	With Split End Hook: Hanger 3.9"/100 mm Wide (E) For Maxi Slats, Used With Box Cover Larger Than 7"	PC	

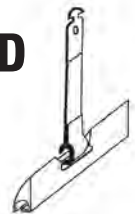

7.5" / 190mm Spring Steel (PVC Hook) Type "P"

Part Number	Description	Unit	Note
4171-LOCK-PL-ST	With Hole for Screw or Rivet & Hook (D) For Maxi Slats Used With Box Cover Larger Than 7"	PC	

TYPE 'K' = POLYESTER COATED, ABRASION SAFE

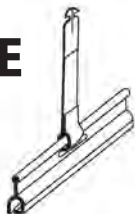

TYPE 'P' = SUSPENSION POLY-GLASS FIBER; SOLIDITY LIKE ALUMINUM & SCRATCH PROTECTION LIKE PVC

E

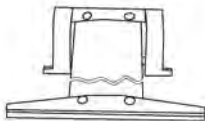

SAFETY BLOCKING DEVICE

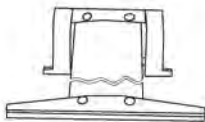

Security Block Burglar Proof Fixation - For Maxi Profile

	Part Number	Description	Unit	Note
	4150-LOCK-PL-ST	w/quick Fixing (1 part, type 2)	PC	
	4151-LOCK-PL-ST	w/quick Fixing (2 parts, type 2)	PC	
	4152-LOCK-PL-ST	w/quick Fixing (3 parts, type 2)	PC	
	4153-LOCK-PL-ST	w/Screw Cap (1 part)	PC	
	4154-LOCK-PL-ST	w/fixation w/Screw cap - 2 parts	PC	
	4155-LOCK-PL-ST	w/fixation w/Screw cap - 3 parts	PC	
	4156-LOCK-00-PL	Maxi Profile for burglar proof fixation	PC	

Safety Blocking Device - For Mini Profiles

	Part Number	Description	Unit	Note
	4174-LOCK-PL-ST	75 mm for 40 mm Octagonal Tube	PC	
	4175-LOCK-PL-ST	105 mm for 40 mm Octagonal Tube	PC	
	4176-LOCK-PL-ST	75 mm for 50 mm Octagonal Tube	PC	
	4177-LOCK-PL-ST	105 mm for 50 mm Octagonal Tube	PC	
	4178-LOCK-PL-ST	135 mm for 50 mm Octagonal Tube	PC	
	4189-LOCK-PL-ST	75 mm for 60 mm Octagonal Tube	PC	
	4190-LOCK-PL-ST	105 mm for 60 mm Octagonal Tube	PC	
	4191-LOCK-PL-ST	135 mm for 60 mm Octagonal Tube	PC	

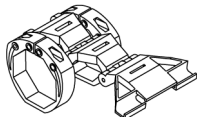

Safety Blocking Device - For Maxi Profiles

	Part Number	Description	Unit	Note
	4179-LOCK-PL-ST	105 mm for 50 mm Octagonal Tube	PC	
	4180-LOCK-PL-ST	135 mm for 50 mm Octagonal Tube	PC	
	4181-LOCK-PL-ST	165 mm for 50 mm Octagonal Tube	PC	
	4182-LOCK-PL-ST	190 mm for 50 mm Octagonal Tube	PC	
	4192-LOCK-PL-ST	105 mm for 60 mm Octagonal Tube	PC	
	4193-LOCK-PL-ST	135 mm for 60 mm Octagonal Tube	PC	
	4194-LOCK-PL-ST	165 mm for 60 mm Octagonal Tube	PC	

Backup Sleeve

	Part Number	Description	Unit	Note
	4183-LOCK-PL-ST	For 60 mm Octagonal Tube	PC	

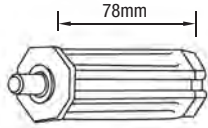

Security Blocking Device

	Part Number	Description	Unit	Note
	4184-LOCK-PL-ST	Security Block 60-3 Limbs 14 mm (Maxi)	PC	
	4185-LOCK-PL-ST	Security Block 60-4 Limbs 14 mm (Maxi)	PC	
	4186-LOCK-PL-ST	Security Block 60-3 Limbs 9 mm (Mini)	PC	
	4187-LOCK-PL-ST	Security Block 70- 3 Limbs 9 mm (Maxi)	PC	
	4188-LOCK-PL-ST	Security Block 70- 4 Limbs 14 mm (Maxi)	PC	
		For 60 and 70 mm OCTAGONAL TUBE, Maxi and Mini Profile (Galvanized Only)		

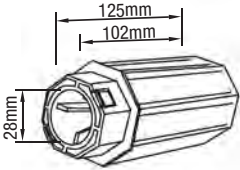

* - Typically ships within 3 days
 N - New item
 ! - Special order item

IDLERS & CAPS

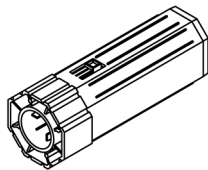

Idler (Mini PVC Cap)

	Part Number	Description	Unit	Note
	4210-CAPS-00-PL	With 10 mm Steel Pivot - 78 mm Long For 40 mm Octagonal Tube	PC	

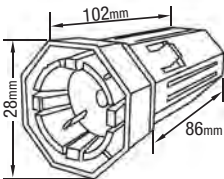

Idler (Mini PVC Cap)

	Part Number	Description	Unit	Note
	4226-CAPS-00-PL	For 28 mm Ball Bearing (125 mm Long) For 50 mm Octagonal Tube	PC	

Idler (Mini PVC Cap)

	Part Number	Description	Unit	Note
	4220-CAPS-00-PL 4228-CAPS-00-PL 4229-CAPS-00-PL 4231-CAPS-00-PL (4228 SHOWN)	For 28 mm Ball Bearing - 78 mm Long Cap w/Clips for 28 mm Ball Bearing Cap w/Clips and 10 mm Square Hole Cap w/Clips and 13 mm Square Hole For 50mm Octagonal Tube	PC PC PC PC	

Telescopic Cap for 28mm Ball Bearing

	Part Number	Description	Unit	Note
	4230-CAPS-00-PL 4227-CAPS-00-PL 4243-CAPS-00-PL (4230 SHOWN)	40mm Octagonal Tube (102 mm Long) 50mm Octagonal Tube (63 mm Long) 60mm Octagonal Tube (100 mm Long) For 28mm Ball Bearing	PC PC PC	

IDLERS & CAPS

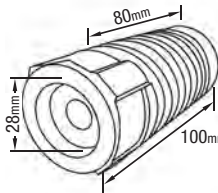

Idler (PVC Cap)

	Part Number	Description	Unit	Note
	4242-CAPS-00-PL	For 28 mm Ball Bearing - 145 mm Long For 60 mm Octagonal Tube	PC	*

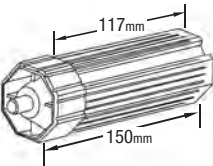

Idler (PVC Cap)

	Part Number	Description	Unit	Note
	4244-CAPS-00-PL 4246-CAPS-00-PL (4246 SHOWN)	For 42 mm Ball Bearing - 55 mm Long For 42 mm Ball Bearing - 115 mm Long For 60 mm Octagonal Tube	PC PC	

Idler (Mini Adaptor Cap)

	Part Number	Description	Unit	Note
	4232-CAPS-00-PL 4233-CAPS-00-AL	PVC For 28 mm Ball Bearing - 100 mm Long ALU For 28 mm Ball Bearing - 100 mm Long For 40 mm / 47 mm Round Tube	PC	

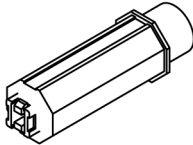

Idler (PVC Cap)

	Part Number	Description	Unit	Note
	4235-CAPS-00-PL 4245-CAPS-00-PL (4245 SHOWN)	With 12 mm Steel Pivot - 55 mm Long With 12 mm Steel Pivot - 150 mm Long For 60 mm Octagonal Tube	PC PC	

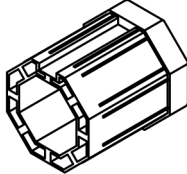

* - Typically ships within 3 days
N - New item

IDLERS & CAPS

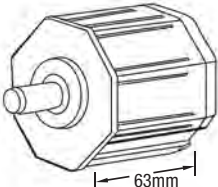

Idler (Mini PVC Cap)

	Part Number	Description	Unit	Note
	4263-CAPS-00-PL	For 28 mm Ball Bearing (90 mm Long)	PC	
	4259-CAPS-00-PL	For 28 mm Ball Bearing (60 mm Long)		
	(4259 SHOWN)	For 40mm Octagonal Tube (Retractable Mini PVC Cap With Spring)		

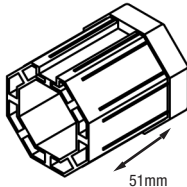

Idler (Adaptor)

	Part Number	Description	Unit	Note
	4264-CAPS-00-PL	For use with #4263 For 40 mm to 60 mm	PC	

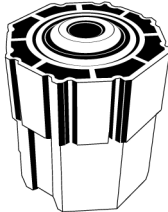

Idler (PVC Cap)

	Part Number	Description	Unit	Note
	4260-CAPS-00-PL	With 12 mm Steel Pivot (63 mm Long)	PC	
	4266-CAPS-00-PL	For 42 mm Ball Bearing (55 mm Long)	PC	
	(4260 SHOWN)	For 70 mm Octagonal Tube		

Idler (Alu Cap)

	Part Number	Description	Unit	Note
	4267-CAPS-00-AL	with 12 mm Alu Pivot	PC	
		For 70 mm Octagonal Tube		

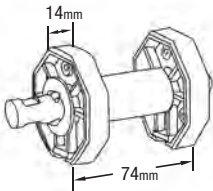

PVC Idler Cap

	Part Number	Description	Unit	Note
	4249-CAPS-00-PL	PVC idler cap for 60mm oct tube w/ 40mm ball bearing	PC	

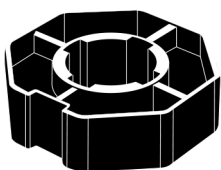

* - Typically ships within 3 days

MOUNTING PLATES & BRACKETS

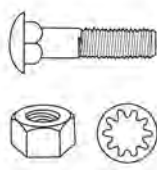

Mounting Plates & Brackets

	Part Number	Description	Unit	Note
	5005-BRCK-00-ST	105 mm x 155 mm	PC	
	5010-BRCK-00-ST	105 mm x 200 mm	PC	
	(5005 SHOWN)	Pre-Drilled Mounting Bracket		

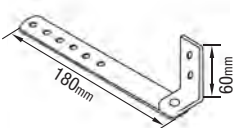

Angle Bracket

	Part Number	Description	Unit	Note
	5012-BRCK-00-ST	115 mm x 105 mm x 65 mm (Heavy Duty)	PC	
	5015-BRCK-00-ST	65 mm x 80 mm x 40 mm	PC	
	(5012 SHOWN)	For Plate #5005 & #5010		

Bolt / Nut / Washer

	Part Number	Description	Unit	Note
	5016-BOLT-00-ST	Bolt M6 x 15 mm (200/ Box) For Plate #5005, #5010, #5012 & #5015	PC	

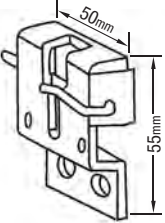

Adjustable Angle Support

	Part Number	Description	Unit	Note
	5025-BRCK-00-ST	For Mounting Bracket #5005 & #5010	PC	

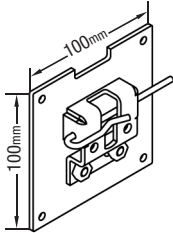

* - Typically ships within 3 days
N - New item
! - Special order item

MOUNTING PLATES & BRACKETS

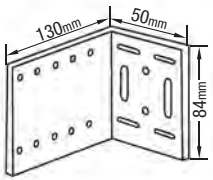

Mounting Plate & Bracket - Idler Support Bracket

	Part Number	Description	Unit	Note
	5050-BRCK-00-ST	Mounting Bracket 55 mm x 50 mm (With Cotter Pin) For Idler #4248 & #4265	PC	*

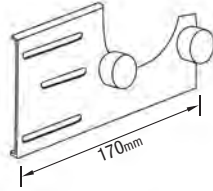

Idler Support Plate For 10" and 12" 45° Sidecaps - Large Leg

	Part Number	Description	Unit	Note
	5055-BRCK-00-ST	For 4248, 4265, & Springs 9618, 9622	PC	

Angle Bracket

	Part Number	Description	Unit	Note
	5030-BRCK-00-ST	For Intermediate Support #5035	PC	

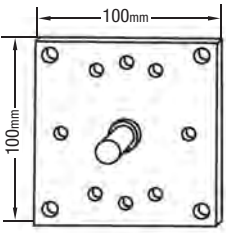

Intermediate Support

	Part Number	Description	Unit	Note
	5035-BRCK-00-ST	With Two Bearings, For #4560, #4561, #4565 & #4566	PC	

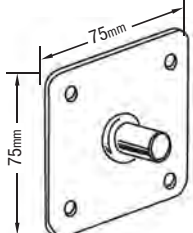

* - Typically ships within 3 days
N - New item
! - Special order item

MOUNTING PLATES & BRACKETS

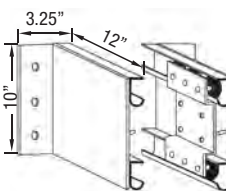

Plate For Standard Side Cap w/ 12 mm Pivot

	Part Number	Description	Unit	Note
	5062-BRCK-00-ST	100 mm x 100 mm mounting bracket	PC	

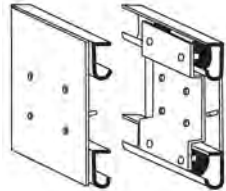

For Strap Reduction Gears #7305 & #7310 / Any Bearing With a 12 mm Hole

	Part Number	Description	Unit	Note
	5060-BRCK-00-ST	For Idlers With 12 mm Pivot	PC	

Angle Bracket 12" X 10" X 3.25"

	Part Number	Description	Unit	Note
	5065-BRCK-00-ST	Rolling Bracket (Floating)	PC	

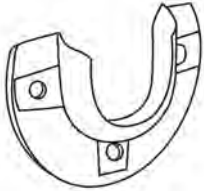

Rolling Bracket (Floating)

	Part Number	Description	Unit	Note
	5070-BRCK-00-ST 5075-BRCK-00-ST (5070 SHOWN)	For BK-250S (10"/250 mm) Side Caps For BK-300S (12"/300 mm) Side Caps	PR PR	

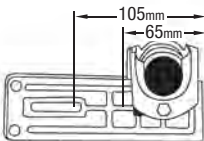

* - Typically ships within 3 days
N - New item
! - Special order item

BEARING HOLDERS

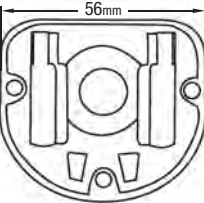

Ball Bearing Holders

	Part Number	Description	Unit	Note
	5115-BEAR-00-ST	For 42 mm Ball Bearing, Galvanized Steel	PC	

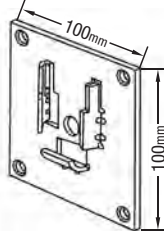

Support with Bearing Holder

	Part Number	Description	Unit	Note
	5135-BEAR-00-ST	For 42 mm Ball Bearing, Galvanized Steel	PC	

Ball Bearing Holder

	Part Number	Description	Unit	Note
	5140-BEAR-00-ST	To Secure Bearing, Galvanized Steel For 42 mm Ball Bearing with Locking Tops	PC	

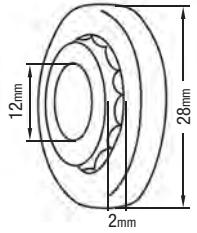

Ball Bearing Holder

	Part Number	Description	Unit	Note
	5150-BEAR-00-ST 5151-BEAR-00-ST (5150 SHOWN)	Bend "Ears" Used With 42 mm Ball Bearing Plate 100 mm x 100 mm w/ Three Support Spec	PC PC	

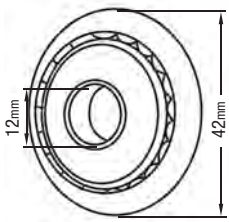

* - Typically ships within 3 days
N - New item
! - Special order item

BEARINGS

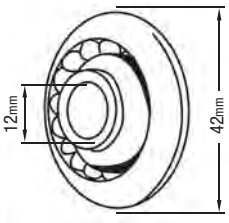

Ball Bearings (Mini)

	Part Number	Description	Unit	Note
	5200-BEAR-00-ST	With Nylon Bushing for 12 mm Pivot	PC	*
	5205-BEAR-00-ST	With Steel Bushing for 12 mm Pivot	PC	

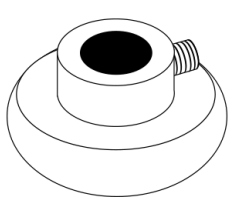

Ball Bearings (Maxi)

	Part Number	Description	Unit	Note
	5245-BEAR-00-ST	42 mm OD with Steel Bushing For 12 mm Pivot	PC	

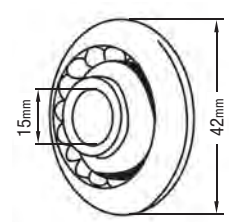

Ball Bearings (Maxi)

	Part Number	Description	Unit	Note
	5250-BEAR-00-ST	42 mm OD with Nylon Bushing For 12 mm Pivot	PC	

Ball Bearings (Maxi)

	Part Number	Description	Unit	Note
	5260-BEAR-00-ST	42 mm OD High Precision Stainless Steel Bearing 42mm F/13mm	PC	N

Ball Bearings (Maxi)

	Part Number	Description	Unit	Note
	5255-BEAR-00-ST	42 mm OD with Nylon Bushing For 15 mm Pivot	PC	

* - Typically ships within 3 days
N - New item
! - Special order item

Section 5

Gears & Accessories

Gears

Gears are attached to the side cap and are used for manual operation.

Gear Accessories

Gear accessories attach the gear to the axle and aide in turning the axle.

Universal Shaft

Universal is a rod that attaches the gear to a crank handle and allows manual operation of a shutter. The hole in the gear (hex or square) and type of end joint (with or without bullet) determines the type of universal needed.

Cranks

Cranks are the end point of operation that allows the user to physically operate a gear driven shutter. Cranks vary in length and end types as well as permanent or removable mounting.

Assist Springs

Assist springs help lift the weight of a manually operated shutter with a gear. These springs can be used on heavy curtains for more convenient operation.

GEARS

1:5 Gear Zamac Lifting capacity 38 lb (17.2 kg)

	Part Number	Description	Unit	Note
	6003 - GEAR-00-ZA	With Hole for 15 mm Octagonal Sleeve Connector. Fits 7mm Hex univ.	PC	*
	6004 - GEAR-00-ZA	With Hole for 15 mm Octagonal Sleeve Connector. Fits 8mm Sq. univ.	PC	

1:10 Zamac Gear Lifting capacity 77 lb (35 kg) 60 mm Octagonal Tube

	Part Number	Description	Unit	Note
	6024 - GEAR-00-ZA	Steel Crown for 7mm Hex Universal Shaft	PC	*
	6026 - GEAR-00-ZA	Steel Crown for 8mm Sq. Universal Shaft	PC	

1:11 STF Heavy Duty Gear, Zamac Case. Lifting Capacity 88 Lbs (40 kg)

	Part Number	Description	Unit	Note
	6032 - GEAR-00-ZA	for 7mm Hex	PC	*
	6033 - GEAR-00-ZA	for 8mm Sq.	PC	

Sidney Plastic Gear Lifting 1:5 44 lbs (20 kg) 1:11 75 lbs (34 kg)

	Part Number	Description	Unit	Note
	6036 - GEAR-00-PL	1:5 for 7mm Hex Shaft	PC	N
	6034 - GEAR-00-PL	1:11 for 7mm Hex Shaft	PC	N
	6037 - GEAR-00-PL	1:5 for 8mm Hex	PC	N
	6035 - GEAR-00-PL	1:11 for 8mm Sq.	PC	N

1:6 S Plastic Worm Gear w/ End Stop 6 mm Univ Shaft Lifting capacity 26 lb (12 kg) 60 mm Octagonal Tube

	Part Number	Description	Unit	Note
	6002 - GEAR-00-PL	With 6mm Sq. Output Hole For use with universal #6202 and PVC adapter #6107	PC	

1:13 S - Gear with Eye

Lifting capacity 109 lb (50 kg) 60 mm Octagonal Tube / 100 lb. (45 kg) 70 mm Octagonal Tube

	Part Number	Description	Unit	Note
	6010 - GEAR-00-ST	With 13.1mm Sq. Output Hole	PC	

* - Typically ships within 3 days
N - New item
! - Special order item

CHB 1:2.6 Zamac Bevel Gear with Override Clutch

Lifting Capacity: 44 lbs w/ 40 mm tube / 31 lbs. w/ 60 mm tube

	Part Number	Description	Unit	Note
	6001 - GEAR-00-ST	For left and right use. Use with 6 mm Sq. universal. 6202-UNIV-24-CH or 6206-UNIV-24-CH Gear Drive: use 6108 (40 mm), 6116 (50 mm), or 6109 (60mm)	PC	

1:5 Ace Gear Plastic for 8mm Sq. Universal Shaft Lifting Capacity 33 lbs (15 kg) 60 mm Octagonal Tube

	Part Number	Description	Unit	Note
	6011 - GEAR-00-PL	With Hole for 15 mm Octagonal Sleeve Connector.	PC	

1:8 Steel Case / Zamac Crown: For 8 mm Square Universal Shaft,

Lifting Capacity: 49 lb (22 kg) 60 mm Octagonal Tube

	Part Number	Description	Unit	Note
	6012 - GEAR-00-ST	With Hole for 15 mm Octagonal Sleeve Connector	PC	

1:8 Zamac Case / Zamac Crown: For 7 mm Hexagonal Universal Shaft,

Lifting Capacity: 49 lb (22 kg) 60 mm Octagonal Tube

	Part Number	Description	Unit	Note
	6016 - GEAR-00-ST	With Hole for 15mm Octagonal Sleeve Connector	PC	

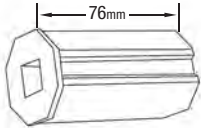

Sleeve Connector For Ace-Gear Fits To #6110, #6115, #6122 And #6131

	Part Number	Description	Unit	Note
	6014 - GEAR-00-ST	15 mm Octagonal To 13 mm Sq. (6011,6012, 6016)	PC	
	6009 - GEAR-00-ST	Sleeve Connector for gear 6024/6026	PC	
	6027 - GEAR-00-ST	15 mm Octagonal To 13 mm Sq. (for 6032/6033)	PC	

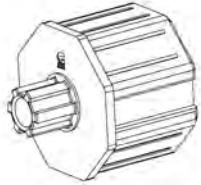

* - Typically ships within 3 days

Mount

B

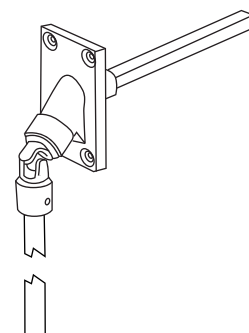

Hook

C

Flexible Joint
Special Crank

D

Universal

E

Parts Description

Bell Mounts

Inside bells are for smaller bullets, while larger bullets require outside mount bells.

Hook

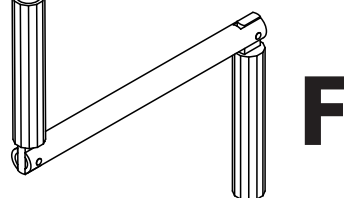

Use a hook end for hard to reach boxes and higher torque applications.

Flexible Joint / Special Crank

Flexible Joint ends are used when security is a necessity. The flexible joint disconnects completely preventing any operation of the shutter.

Universal

Used for permanently attached Crank Handles.

Section 6

Pulleys & Recoil Boxes

Pulleys

Attach to side cap and idler insert.

Recoil / Crank Boxes

Recoil and crank boxes contain the tape which attaches to the pulley and manually operates the shutter curtain. Choose a recoil box based on the mounting style, design and tape size.

Tape Guides

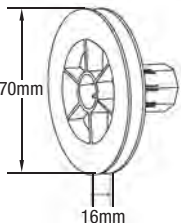

Tape guides align the recoil box tape in line with the pulley.

Tape

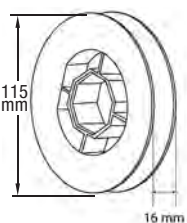

Tape is the physical operator around the pulley that turns the axle. Ensure the tape type chosen is long and strong enough to support manual operation of a shutter.

PULLEYS

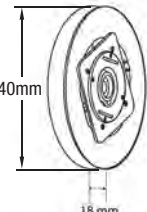

Mini Plastic Pulleys for 40 mm Octagonal Tube and 28 mm Bearing

Section 7

Motors & Accessories

Motors

Electronic motors aid in lifting shutters for convenience of operation or for shutters that are too heavy to lift manually. Choose a motor type based on the shutter weight and size.

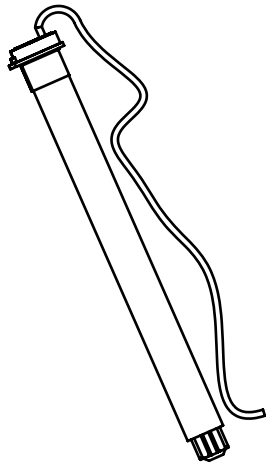

Crowns / Drives

Crowns and drives attach the motor to the axle and assist in turning the shutter. Crown and drive sizes are dependent on the size of the motor and axle.

Mounting Brackets

Mount the shutter to the building fascia.

SOMFY MOTORS

Somfy LT50 Motors

Part Number	Description	Unit	Note
8005-MOTO-00-ST	510R2 ELC*: 39 lbs / 60 mm Octagonal Tube, 40% SF.14 rpm	PC	*

Section 8

Electronics

Switches / Switch Plates

Switches operate a motorized shutter. Choice of switch is determined by style.

Transmitters

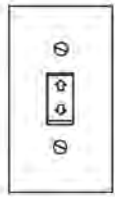

Transmitters remotely operate shutters. Transmitters are capable of operating a single shutter as well as multiple shutters.

Control Systems

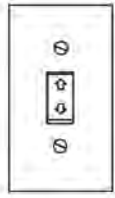

Control systems assign individual shutter motors to a transmitter. These can be assigned to work individually or have all of the shutters operate at once.

SWITCHES / SWITCH PLATES

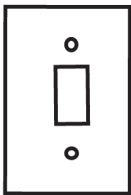

Rocker Switches - Maintained 3 Fixed Positions

Section 9

Garage Doors

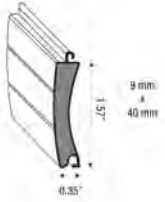

This exploded view diagram illustrates the components of a garage door system. The central element is the garage door panel, which features a series of horizontal ribs. Surrounding the panel are various hardware items: two long rollers with stems, a set of tracks (vertical and horizontal), a mounting bracket, a small rectangular component, and a larger rectangular component with a circular opening. The diagram shows how these parts fit together to form the complete assembly.

Garage door parts are designed with a heavier duty construction than typical shutter parts to allow wider applications. Using a rolling shutter as a garage door reclaims unused space that was previously taken up by standard garage door rails.

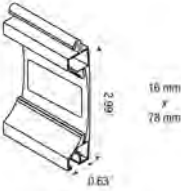

Garage door parts are designed with a heavier duty construction than typical shutter parts to allow wider applications. Using a rolling shutter as a garage door reclaims unused space that was previously taken up by standard garage door rails.

GARAGE DOOR PARTS

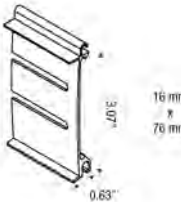

R0 77 - Maxi Aluminum Foam Filled Slat

Section 10

Storm Panels

Standard Storm Panels

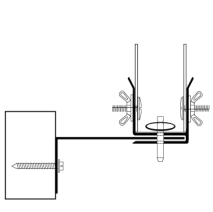

Storm panels are a cost effective alternative to rolling shutters for hurricane protection. They stack flat when not in use.

Mounting Hardware

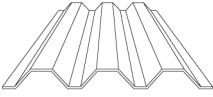

Hardware that attaches the storm panel to the wall. This hardware is left on the building when the storm panels are not in use.

STORM PANELS

Section 11

Manufacturing Equipment

Endlocking Bench

Specially crafted table that aides in curtain assembly. Expandable table allows variance in curtain sizes, with additional rolling center support to prevent sagging in larger curtains.

Saw and Blades

Saw for accurate cutting of rolling shutter profiles and box covers. Designed for high precision and burr free cut. Feeding tables with electronic or manual read out available.

Pneumatic Tools

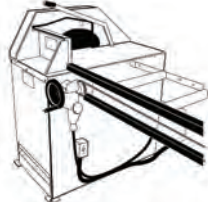

Recommended dependable tools for rolling shutter assembly.

MANUFACTURING EQUIPMENT

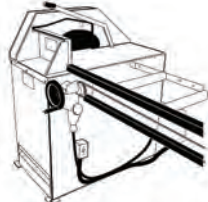

Endlocking Bench (Manual)

	Part Number	Description	Unit	Note
	9506-ACCE-00-ST	Extendable - Complete with 2 Safety Rails Each 3 mtr	PC	!

Saws RPS600 Cross-Cut Saw - Manual Read Out 3x220v 60hz with 2 Roller Beds, 4mtr and 5mtr

Rollac recommends the use of the following margins of safety in the lifting capacities:

- 1.) For awnings use: 30%
- 2.) For rolling shutters use: 40%
- 3.) Any shutter over nine (9) feet in height add a 10% safety margin for every three (3) feet of height added
- 4.) For use of one motor for multiple curtains add an additional 15% safety margin for each additional curtain.
- 5.) Add an additional 15% to the effective load for shutters using end retention.

Please call your Rollac representative for details on how to determine the right motor for your application.

* Weights for motors are approximate shipping weights.

Rollac recommends the use of the following margins of safety in the lifting capacities:

- 1.) For awnings use: 30%
- 2.) For rolling shutters use: 40%
- 3.) Any shutter over nine (9) feet in height add a 10% safety margin for every three (3) feet of height added
- 4.) For use of one motor for multiple curtains add an additional 15% safety margin for each additional curtain.
- 5.) Add an additional 15% to the effective load for shutters using end retention.

Please call your Rollac representative for details on how to determine the right motor for your application.

* Weights for Motors are approximate shipping weights.

- 1) Limited Availability
- 2) Recommended with 80 mm adapter rings #4560 or #4565
- 3) Approximate rail heights, box size may vary with width of shutter due to axle deflection
- 4) Also available in light-weight 1.556 lb/sqft.
- 5) Slats only
- 6) Slats with Rebar
- 7) Slats with regular foam
- 8) Slats with hard foam
- 9) 70mm / 1.5mm axle with 130mm adapter rings #4570
- 10) With "spider" slat hanger #1354

Rolling Shutter Measurement Terms

Housing Size:

The dimension of the housing in which the curtain rolls into.

Rail Height:

Height of the guide rail.

Rail Height and Housing Size

Rail Height and Housing size are two dependent measurements. The taller the rail, the larger the housing size. For detailed information on rail height and housing size refer to sheet 12.4 or Rollac Shutter Spec Sheets available at www.rollac.com

Opening height

The actual dimension of unobstructed view or the dimension through which an object can clear.

Base Slat Clearance

The base slat is a special bottom profile of the curtain and remains in the guide rails when the shutter is retracted. Typically, the remaining height of the base slat in the guide rails measures 2 – 3 inches.

Opening Height and Rail Height

Typically the opening height can be determined by the rail height and vice versa. Add the base slat clearance to the opening height to get the rail height. Alternatively, deduct the base slat clearance from the rail height to get the opening height.

Opening Width

The opening width determines the width of the opening of the shutter.

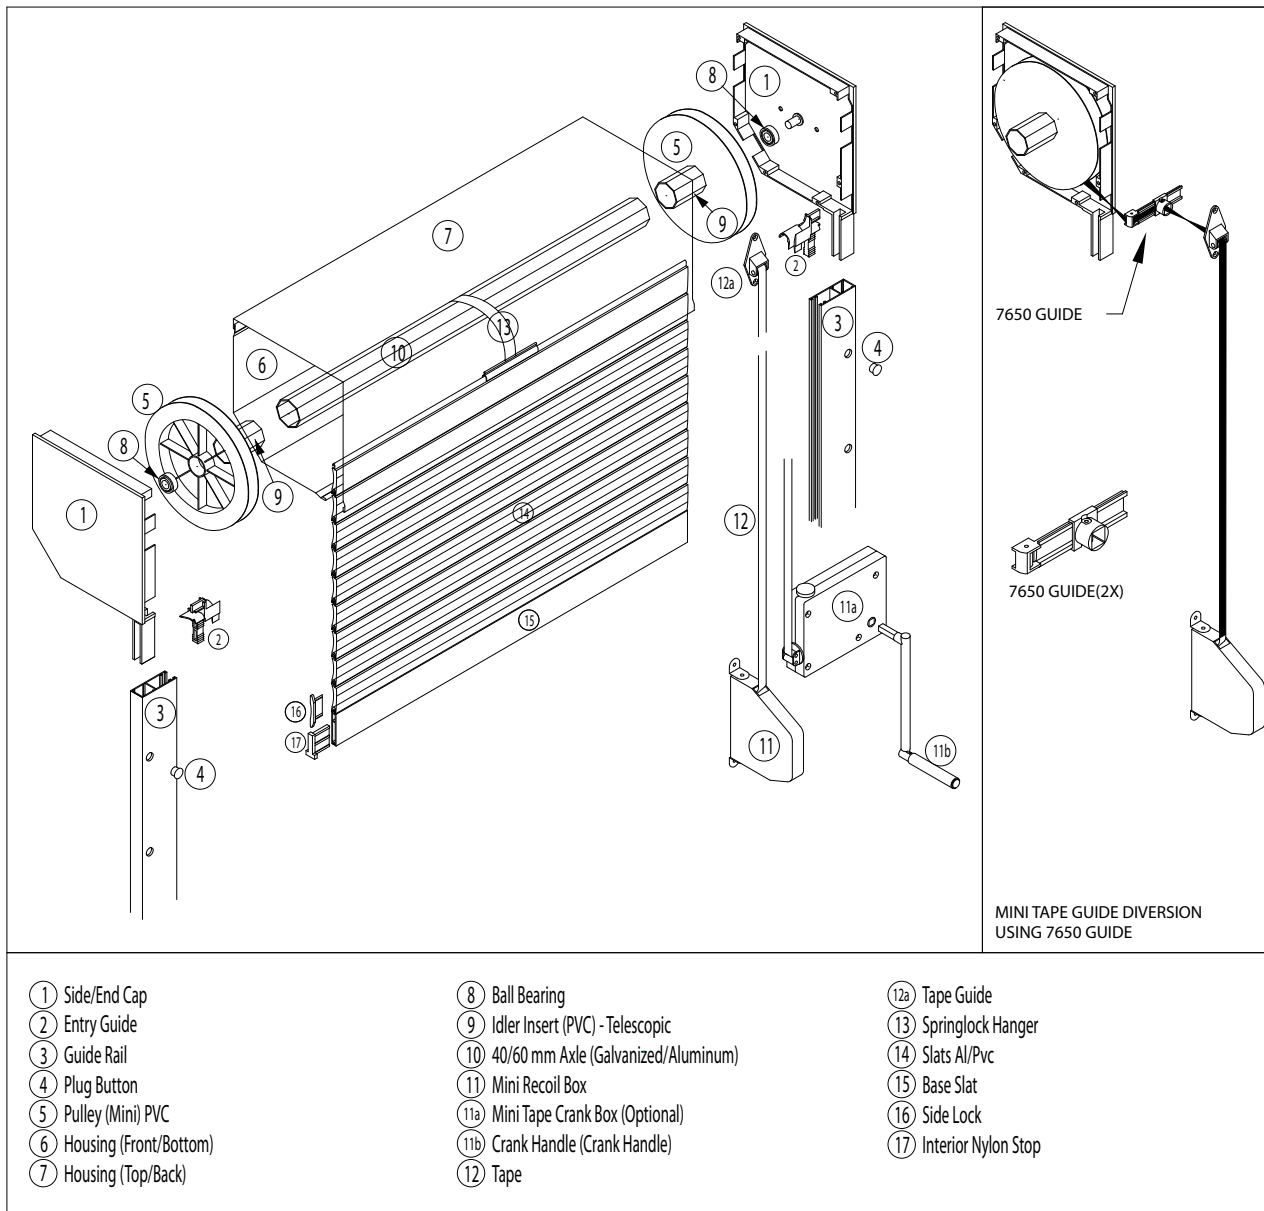

Rails

Size of the guide rails on each side. The dimensions for the guide rails depends on the rolling shutter profile.

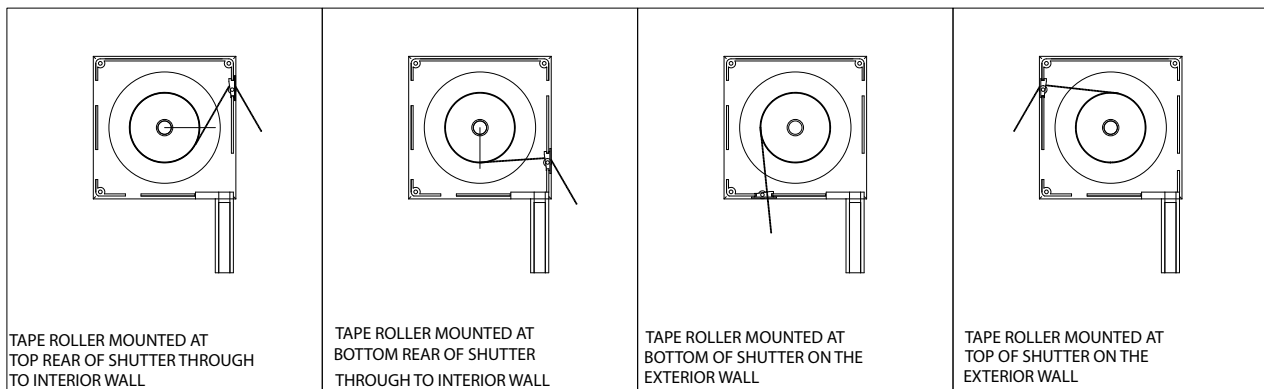

Total Width

The total width of the shutter, including rails and housing.

Terms and Conditions

§1. Contract

All offers, quotes and sales by ROLLAC Shutter of Texas, Inc. are subject to these terms and conditions of sale.

§2. Acceptance

By taking delivery of products, Buyer agrees to these terms and conditions unless otherwise expressly agreed under separate written contract with ROLLAC. The terms and conditions stated herein shall prevail over any different or additional terms and conditions proposed by Buyer and shall apply to the sale or shipment of any goods in response to Buyer's order. ROLLAC hereby objects to any different or additional terms and conditions, which may be proposed or have been proposed by Buyer in any purchase order form or other document.

§3. Privacy

With Rollac's shopping cart not being saved on a SSL Server (secured server), Rollac takes no responsibility for any lost data. To respect Rollac customers' privacy Rollac does not demand any credit card, check or other financial information through means of the web site. Any information necessary to complete a purchase will be inquired by phone, fax, or email.

§4. Prices and Delivery

All quoted prices are subject to change without notice. Prices on accepted orders remain firm for a period of four months from the date of order acceptance, provided final delivery occurs within that period. Quoted prices are in U.S. dollars F.O.B. ROLLAC Plant, Pearland, Texas, excluding freight, packaging and taxes. Quoted delivery dates are approximate.

§5. Sales Tax

ROLLAC is required to charge applicable state and local tax on every item.

§6. Payment Terms

6.1. For customers with established credit, terms are net thirty (30) days from date of shipment. If credit is not established, please include payment with order or purchase through Visa, Master Card, or American Express.

6.2. Amounts past due are subject to a finance-charge of 1.5% per month

6.3. On past due accounts ROLLAC retains the right to halt further deliveries and service to Buyer until all past due amounts have been paid, and the required payment in advance for orders not yet delivered.

6.4. Export orders may be subject to special export payment terms and conditions. (see 20.)

§7. Credit Balance

Customer agrees that any credit balances issued will be applied within one (1) year of its issuance. IF NOT APPLIED OR REQUESTED WITHIN ONE (1) YEAR, ANY BALANCE REMAINING WILL BE SUBJECT TO CANCELLATION, AND ROLLAC SHALL HAVE NO FURTHER LIABILITY.

§8. Freight Terms

Freight and shipping fees will be charged for shipments to a customer's place of business anywhere in the contiguous United States, using a carrier of our choice. Other terms apply to Alaska, Hawaii, Puerto Rico, and export orders. Any extra charges incurred for additional services, such as customer's carrier or special handling by the carrier, must be paid by the consignee. Items backordered from an order qualifying for prepaid shipping charges will be shipped prepaid. Title and risk of loss pass to the customer upon tender of shipment to the carrier. If product is damaged in transit, consignee must file claim with the carrier.

§9. Inspection and Claims

All claims against ROLLAC for shortages, damage, etc., must be made in writing to ROLLAC within fourteen days from the date of receipt, otherwise all claims are waived. Buyer shall inspect all products upon delivery and immediately notify the carrier of any defects, loss or damage by telephone and confirm the same in writing to the carrier. ROLLAC cannot process any claim of the buyer concerning product shipments unless Buyer notes its claim, in writing, on all delivery receipts signed by the Buyer and Buyer otherwise complies and properly substantiates its claim in accordance with the carrier's requirements.

§10. Risk of Loss

Full risk of loss, damage or destruction of the goods shall pass to Buyer upon delivery of the goods, to the carrier at the point of shipment or upon delivery at storage, whichever applies.

§11. Force Majeure

If an order cannot be completed due to causes beyond ROLLAC's control, ROLLAC retains the right to either cancel the unfinished portion of the order or complete the order if and when this becomes possible. Buyer shall not have the right to withhold payment on delivered goods and/or services. Force Majeure includes but is not limited to strikes, lockouts, storms, floods, wars, revolutions, major equipment failures or fire damage at production facilities, and other such acts of God or man.

§12. Warranty

ROLLAC warrants all supplied parts against defects in material and workmanship for a period of two full years from date of sale with the following exceptions: (1) all electric motors are warranted for a period of five years and (2) all electronic components (automatic and radio control system components) are warranted for a period of one year. If any part or component does not function as intended during the warranty period, ROLLAC will, at its option, repair the part or furnish a replacement part to Buyer free of charge. This warranty does not apply in cases of abuse, misuse, misapplication or any defects due to faulty installation. ROLLAC disclaims all other warranties, expressed or implied including, without limitation, the warranties of merchantability, fitness, burglar proof, and light blockage.

Terms and Conditions

§13. Return

No goods may be returned without the express written approval of ROLLAC and without a return authorization number. Returns are subject to ROLLAC's acceptance, and a restocking charge of 20% of invoice value will apply on all returned goods. Goods approved for return must be returned in appropriate packaging, freight prepaid and accompanied by a copy of the original invoice. Goods that arrive damaged or cannot be returned to stock will not receive credit.

§14. Title

Title to the merchandise shall remain in Rollac until payment to Rollac of full purchase price by Buyer. Rollac retains the right to repossess, and any other remedies provided by law.

§15. Limited Liability

ROLLAC's liability for any and all claims, charges, expenses, damages, losses and injuries arising out of or relating to its performance or breach of any agreement of sale of goods and the manufacture, sale delivery, resale, repair or use of any goods shall not exceed the purchase price of such goods. This shall be Buyer's sole and exclusive remedy against ROLLAC outside of the remedy provided for under ROLLAC's warranty. In no event shall ROLLAC be liable for incidental, special or consequential damages.

§16. Liens and Security Interest

Buyer shall not allow any un-discharged lien, encumbrance or charges upon the goods supplied by ROLLAC until ROLLAC has received payment in full for such goods. If any liens, encumbrances or charges are filed against ROLLAC goods prior to full payment, Buyer shall discharge the liens, encumbrances or charges within ten days and reimburse ROLLAC for expenses incurred in defending its security interest. Title to goods shall remain with ROLLAC until full payment has been received.

§17. Statute of Limitations

Any action against ROLLAC shall be commenced within one year after the cause of action has accrued.

§18. Arbitration, Indemnification and Choice of Law

18.1. Any legal action with respect to any transaction must be commenced within one year after the cause of action has arisen.

18.2. Disputes arising under this agreement shall be decided under procedures set by the American Arbitration Association. Buyer shall be liable for all costs of collection, fees, expenses, court costs and reasonable attorney fees.

18.3. Buyer expressly agrees to indemnify and hold ROLLAC harmless from all charges and liability from any party relating to actions under this agreement. The rights and duties of the parties to this agreement and the construction and effect of these terms and conditions shall be governed by the laws of the State of Texas.

§19. Full Agreement

These terms and conditions represent the total agreement of the parties, and all agreements entered into prior to or contemporaneously with the execution of this agreement, other than as provided herein, are excluded whether oral or in writing.

§20. Special Export Terms and Conditions

20.1. Order Acceptance:

Buyer acknowledges that no order shall be deemed accepted unless and until it is verified and accepted by ROLLAC. Buyer further consents that submission of its order shall subject Buyer to the jurisdiction of the courts of the United States and the State of Texas.

20.2. Payment Terms:

Unless Buyer has an existing account with ROLLAC and unless otherwise agreed, all export sales are made on condition that Buyer make payment in advance by credit card or wire transfer at the time of order, or that Buyer establishes satisfactory credit with ROLLAC prior to shipment. For Buyers with established credit, terms are net thirty (30) days from date of shipment.

At ROLLAC's option, certain export orders may be subject to special export payment terms and quotations.

All payments must be in U.S. dollars, and ROLLAC shall have the right of set-off and deduction for all sums owed.

20.3. Credit Balance:

Buyer agrees that any credit balances issued will be applied within one (1) year of its issuance. If not applied or requested within one (1) year, any balance remaining will be subject to cancellation and ROLLAC shall have no further liability.

20.4. Freight Policy:

Shipping terms are FOB. Buyer shall be responsible for obtaining insurance. At ROLLAC's option, freight policy for certain export orders may be subject to special terms and conditions. If any item is backordered on an order qualifying for freight payment, that item will be shipped prepaid as Buyer's exclusive remedy. If product is damaged in transit, Buyer must file claim exclusively with airline, carrier, vessel and/or insurance company.

20.5. Product Suitability:

Many countries and localities have codes and regulations governing sales, construction, installation, and/or use of products for certain purposes, which may vary from location to location. While ROLLAC attempts to assure that its products comply with such codes, it cannot guarantee compliance, and cannot be responsible for how the product is installed or used. Before purchase and use of a product, Buyer should review the product application and applicable codes and regulations to be sure that the product, and use will comply with them.

Terms and Conditions

20.6. Trademarks and Copyrights:

Buyer acknowledges that it has no right, title or interest in the trademarks or copyrights in the products and covenants that it will take no action to register or otherwise interfere with such rights of ROLLAC. Buyer agrees that it will not copy the products sold to Buyer or their packaging or trade dress.

20.7. Complete Agreement:

The sales terms and conditions in ROLLAC's forms, acknowledgements, quotations, invoices, catalog, web-site and dialog screens are incorporated herein by reference, and constitute the exclusive and entire agreement between Buyer and ROLLAC. They are also applicable to electronic orders and purchases from ROLLAC's web site and electronic catalogs.

20.8. Country of Importations:

Buyer represents that it is purchasing products from the United States and importing them to the country specified in Buyer's and ROLLAC's documentation. Buyer agrees that the products will be shipped to the specified destination in compliance with the laws of such destination and the United States, and that there will be no re-export or diversion from such specified destination. If requested by ROLLAC, Buyer shall provide documentation satisfactory to ROLLAC verifying delivery at the designated country. Buyer agrees to inform ROLLAC at the time of order of any NAFTA or other certificates of origin or other special documentation, packaging or product marking or labeling and ROLLAC shall not be responsible for providing any such documentation, packaging, marking or labeling unless ROLLAC expressly agrees.

20.9. Export and Import Licenses, Controls, Permits and Freight Forwarder:

Buyer shall be responsible for obtaining and paying for any permits, licenses or other governmental authorization(s) necessary for the exportation from the U.S. or importation of the products to the designated country of importation, and it shall comply with all laws and regulations thereof. Buyer shall select and pay the freight forwarder who shall solely be the Buyer's agent. The freight forwarder's actions shall not be deemed authorized by, or binding upon ROLLAC unless expressly agreed to by ROLLAC. The Buyer and its freight forwarder shall be solely responsible for preparing and filing the Shipper's Export Declaration. At the request of ROLLAC, Buyer agrees to provide copies of any export, shipping or import documents prepared by Buyer or its agents related to ROLLAC's sales to Buyer.

20.10. Foreign Corruption Practices Act:

Buyer acknowledges that it is not the agent of ROLLAC and represents and warrants that it has not, and covenants that it will not, pay anything of value to any government employee in connection with the resale of the products.

20.11. No Third Party Benefit:

The provisions stated above are for the sole benefit of the parties hereto and confer no rights, benefits or claims upon any person or entity not a party hereto.

20.12. Waiver:

The failure of either party to assert a right hereunder or to insist upon compliance with any term or condition will not constitute a waiver of that right or excuse any subsequent nonperformance of any such term or condition by the other party.

Experience Technology Higher Standards

Rollac Rolling Shutters is a leading manufacturer of rolling shutters. With more than 30 years of experience, we believe that technology and quality service are the driving forces behind our rolling shutters. We take pride in the fact that we are the only company in North America that manufactures rolling shutters from raw materials to finished solutions.

Using the latest technology at hand, all our solutions are engineered in house and suited to accommodate the American market. If you need a rolling shutter to protect from solar heat gain, a shield for security, or Miami Dade wind storm protection, Rollac Rolling Shutters provides the right solution.

Buildings consume 39% of all energy and are also the largest source of carbon dioxide emission in the USA. Therefore, we at Rollac strive to engage in environmentally responsible practices and pledge to integrate principles of sustainability into our rolling shutters and our day to day operations.
